EVERTANN BLANCHE CRU

Powder Tannin for Protection

CHARACTERISTICS

EVERTANN BLANCHE CRU is a special blend of tannins in powder, light brown colour, easily soluble in water or wine.
EVERTANN BLANCHE CRU has a high surface charge.

APPLICATIONS

This tannin has strong anti-oxidant and anti-oxidase capacities, it reacts quickly with oxygen, protecting wines and musts during all the process phases, from crushing to bottling. **EVERTANN BLANCHE CRU** is ideal for fining and racking.
EVERTANN BLANCHE CRU is a type of tannin expressly designed to maintain the aromatic freshness in wines, increasing their shelf life. It is also able to enhance the tannic structure, giving tastiness and persistency.
During the fermentation and refining phases, **EVERTANN BLANCHE CRU** develops the formation of aromatic precursors typical of white flowers and citrus, contributing to the complexity of the wine's bouquet.

DOSAGE AND INSTRUCTIONS FOR USE

White wines: 2-6 g/hL
Red and rosé wines: 4-10 g/hL

Dissolve the product in water or wine in a ratio of 1:10 and add it to the mass in a homogeneous manner.

NOTE: we suggest laboratory tests for defining the best dosage and avoid undesired colloidal effects.

COMPOSITION

Blend of tannins of the hydrolysable and condensed type.

PACKING

1 kg packs.

This product is not considered dangerous therefore a material safety data sheet is not necessary.
